Newsletter #19 and the 7 Sharp clip

Welcome to our 19th newsletter. Here is [a link to previous newsletters](#)

This newsletter focuses on two important items during early February 2013, our appearance on [the 7 Sharp programme](#) and an amazing You Tube clip by one of the authors of the IMF paper “The Chicago Plan revisited, Dr Michael Kumhof.

The 7 Sharp programme

We were interviewed for five hours during January for the 7 Sharp programme and were asked to keep it to ourselves, in case TV 3 got wind of it and tried to do a spoiler.

We were told that we would get a day’s notice prior to it going to air, so sat on the news for a couple of weeks.

As it turned out – we got 30 minute’s notice – so we were frantically sending texts, updating Facebook, phoning around and sending out a very brief Newsletter.

[The clip](#) was 7 minutes long and in that short time it covered as much as we could hope for. It put our message out there in prime time viewing to over 100,000 people which was a great result. It also attracted 177 comments on the 7 Sharp Facebook page.

You Tube clip on the IMF paper “The Chicago Plan revisited, Dr Michael Kumhof.

We also posted up a remarkable [35 minute You Tube clip by Dr Michael Kumhof](#) in which he provides a no holds barred rebuttal of the current system and explains his solution.

Please set aside half an hour to watch this clip. We forwarded it on the Russel Norman who posted it on his Facebook page.

The message is getting out there.

Regards

Sue Hamill and Don Richards
